## Experience

### Senior Application Developer

#### The Kroger Co - Intranet Development & Support, Health & Wellness Developer

- June 26, 2006 - November 30, 2020 (remote since July 7, 2009)
- Developed numerous internal web applications from the database up to the user interface/experience. I interfaced directly with the business, business analysts, product managers, scrum masters, and external vendors to ensure successful and timely delivery. Major projects include:
  - Scheduling/Appointment Tool (for The Little Clinic, Kroger Health & Pharmacy) an application initially created for administrators to manage resources and schedules for more than 220 clinics and 2200 pharmacies within Kroger stores. Due to the COVID-19 pandemic, it was quickly expanded to schedule drive-thru testing, at-home test kit collections, and in-person testing. A few months into the pandemic, it was yet again expanded to provide the backend for patients to schedule flu shots in the pharmacies. Endpoints were exposed to the front-end Digital banner team to collect patient information. The back-end application integrated with eClinicalWorks' electronic medical record system and also interfaced with Gravity labs. In the first year, without COVID-19 services, the system easily handled over IMM appointments annually.
  - The Pharmacy Reportal application provides a report card of configurable metrics rolled by week, period and year for pharmacies, districts and the enterprise. It was also expanded to collect and manage action plans for pharmacies to focus on and improve. The backend rolled up scores using stored procedures within a SQL Server Information Services ETL package. The application also allowed administrators to manage metrics, scoring, uploading of external data, and the ability to rerun scores on an adhoc basis when needed.
  - CAO Scorecard - a store-level report to measure and improve the amount of product on the store shelves
  - Production planning sales tool - forecast sales and reduce shrink for perishable (meat, deli, and produce) departments using historical movement of thousands of items and stores
  - Enterprise Pharmacy Scheduler - scheduler and workflow for pharmacists, techs & interns based on forecasted demand
  - Customer Donations - processed sales transactions, associations, and allocation of millions of dollars in annual donations to non-profit organizations throughout the U.S.

### Software Development Manager, Technical Lead, Web Master, Interactive Media Developer

#### Dynamics Research Corporation - GUARDian Program Management Office

- Oct 20, 2003 - May 2006
- Managed a team of web developers, web masters and web designers in creating and maintaining a number of applications in support of the Air National Guard.
- Developed numerous applications (authentication, conferences, bulletin boards, content management systems, financial systems, and management systems) and components from analysis to testing.
  - Conference application allowed users to register and also included the ability for owners to create and modify workshops. The application also had an administrative section that allowed administrators manage conference information, schedules, and participants.
  - Modules for Force Management application to made it Section 508 compliant.
  - Website for a new office to address initiatives impacting states due to Base Realignment and Closure.
  - Web application to track funds and days allocated for National Guardsmen to train. The application was developed from the ground up.
  - Web application for the Joint Operations Center. Developed and led a team to complete development of application to be used by governors in order to share National Guard Bureau assets available geographically by implementing Google Maps™ API.

### Associate Creative Director, Creative Traffic Manager, Web Designer

#### CoolSavings, Inc. (now Q Interactive)

- Jan 2000 - Sept 2003
- Managed a team of six designers and copywriters
- Designed and tested layouts, HTML email, online printable coupons and banners (static, animated, and Flash)
- Developed intranets and internet sites with ASP to create interactive database driven pages, HTML & CSS for layout.
- Created and designed layouts for hundreds of advertisers including DreamWorks, Toys"R"Us, Suave, Land O'Lakes, P&G, Glaxo Smith Kline, Target, Wal-Mart, and Revlon.

### Mathematics Teacher - High School

#### Saint Scholastica Academy

- Aug 1995 - June 1999
- Taught Algebra I through AP Calculus utilizing everything from books, blackboard, art, calculators and the internet
- Created a website for students to reference and keep up with assignments

---

## Technical Skills

### Code/Languages

- ASP
- ASP.NET
- ActionScript
- C/C++
- CSS
- ColdFusion
- HTML
- Java
- JavaScript (jQuery, JSON, ExtJS)
- Node
- Perl
- Python
- REST
- SSIS
- T-SQL
- VBScript
- XML

### IDEs/Applications

- Eclipse
- IntelliJ IDEA
- Illustrator
- Photoshop
- SQL Server Management Studio

- MS Office
- Visual Studio Code

#### **Other**

- Certified ScrumMaster
- Web Services
- Section 508
- IIS
- Git/CVS/SVN/Stash/BitBucket
- JIRA
- Confluence
- Agile/Scrum/Kanban

#### **Education, Training & Awards**

---

##### **DePaul University, Chicago, IL**

- Master of Science, E-Commerce Technology, 2004

##### **Wheaton College, Wheaton, IL**

- Bachelor of Science, Mathematics, 1994
- Math teaching certification: Illinois Standard High School Type 09
- Awarded one of four *Helen McLenden Ewen Scholarships* by Education Department based on potential, performance, and experience

##### **Who's Who Among America's Teachers**

- Nominated by students (1998 & 1999)

#### **Continuing Education**

- Java/Angular bootcamp (Nov 2018)
  - MAX Technical Training – Cincinnati, OH
- Certified ScrumMaster Workshop (Aug 2011)
  - MAX Technical Training – Cincinnati, OH
- Advanced ColdFusion MX (Dec 2005)
  - [Figleaf Training](#) – Washington, DC

#### **The Kroger Corporation**

- Taking Care of Business Award (Oct 2009)

#### **Dynamics Research Corporation**

- Certificate of Excellence (Sept 2005)
- Key Contributor Award (Feb 2005)
- Certificate of Excellence (Aug 2004)
- Outstanding Achievement Award (July 2004)
- Interim Secret Security Clearance (Expired June 2006)

#### **Volunteer & Service**

---

- Rebuilding Together - volunteered renovating home in Washington, DC (Apr 2006)
- Culture camp director and counselor for Korean adoptees (1994 - 2002)
- Sunday school teacher (1991 - 1999)
- Summer Leadership School residential counselor (1992 - 1994)
- JV & Varsity volleyball coach (1995 - 1998)
- Freshman basketball coach (1995 - 1998)
